

Amco Veba 603T - 3 tm available with up to 3 hydraulic extensions

Easy to use

By having one less function and simpler geometry, the crane is easier to stow, unstow, and use. This makes it very suitable for occasional operators, companies with many operators, and for rental companies.

Light

We omit the first boom found on an articulated version, as well as the offset second boom. Instead, we use an inline boom with extensions. This reduces the weight of the crane.

Compact

Thanks to the design a "T" crane takes up less space on the chassis. The body can be built longer to add space for cargo.

Max. oil flow (gpm)	2.1	2.1	2.1
Max. working pressure (psi)	2321	2321	2321
Stabilizers	Optional	Optional	Optional

STANDARD FEATURES
Load limiting device
Hexagonal section extensions
Independent extension cylinders
Designed in accordance with EN12999
Control panel with customizable position
ABS protective cover on controls
Worm and gear rotation
SAE and JIC fittings
One year warranty

ACCESSORIES
Radio Remote Control
Oil tank
Supplementary elements activation
Mechanical booms
Electro-hydraulic power pack
Turning stabilizer legs
Extra extendable stabilizers
Manually opening stabilizers
Tubular base for stabilizers

DIMENSIONS

DIMENSIONS 603T 3S

Rev. 07 (11/2012)

SPECIAL FEATURES

Optional Radio Remote Control

Optional ETR Electric hydraulic power pack

Radio Remote Control

The operator can control the crane with high precision proportional levers in every position, and in doing so, can supervise the loading and unloading operations. That means a time savings and greater safety. The operator can also control the truck engine start, stop and accelerator with the remote control. All of the remote controls used by AMCO VEBA have an identification code and are shielded from electro-magnetic fields and from external radio signals.
