STANDARD FEATURES

- Remote control
- Danfoss PVG32
- One-shot lubrication
- Load limiting device
- Hexagonal section extensions
- Independent extension cylinders
- Turning Stabilizers
- Stabilizers with hydraulic extensions
- Flanged valves
- Oil tank
- Assembly kit
- Designed in accordance with EN12999
- Fatigue test classifications B3
- One year warranty

ACCESSORIES

- Supplementary elements activations
- Winch
- Extra extendable sliding stabilizers (no 7S,8S)

DIMENSIONS (mm)

**DIMENSIONS
946-950 8S**

Rev.2014/02

8 / 40

SPECIAL FEARES

AVPS 
Amco Veba Power System

AVPS system can reach longer outreach, with a heavy load, at the highest precision.

**Optional*

**Only with CE or Radio Remote*

SDD 
Soft Descend Drive

The SDD system is designed to reduce the oscillations and ensure a perfect control of the motions.

RRS 
RADIO REMOTE STANDARD

Radio Remote Control

The operator can control the crane with high precision proportional levers in every position, and in doing so, can supervise the loading and unloading operations. That means a time savings and greater safety. The operator can also control the truck engine start, stop and acclerator with the remote control. All of the remote controls used by AMCO VEBA have an identification code and are shielded from electro-magnetic fields and from external radio signals.

EBB
Electronic Black Box

Amco Veba has designed this control motherboard to ensure an effective and reliable control of the crane in every working condition. The operator can read on the display all the information about the state of the crane, of the accessories, and of the routine maintenance. All components are designed according to automotive industry standards and ensure the highest reliability.

SGS 
Sprint Generation System

The purpose of SGS system is to increase the extensions speed without affecting the crane safety.
